No RX Coverage

You can select one (1) or more Rx Options per each Medical Plan Option you select

All APEHP Prescription Programs have cost saving measures in place to ensure that both our Members and our Plan save the most on covered prescriptions.

- **MOA, Retail Retail Allowance** - Save by using the Mail Order Program. Mail Order can save members significantly for long-term drugs. After the third purchase, members will pay the Mail Order Co-payments for the 30 day retail supply. Members can avoid paying more by using the Express Scripts Mail Order Pharmacy. Medications will be delivered right to them, and standard shipping is free. Once members get started, they can request refills easily by mail, online, or over the phone.

- **PDST, Preferred Drug Step Therapy** - Save by using Preferred Drugs. Many drug categories have multiple drugs that can treat the same condition. The Affiliated Physicians and Employers Health Plan requires members to fill certain preferred medications over other non preferred medications unless their physician indicates otherwise. If members fill non preferred medication without getting prior approval or having their physician contact Express Scripts, they will be responsible for the drug's entire cost.

- **Save by using Generics.** The Plan has a program in place to automatically fill your prescription with the low cost generic alternative to save both you and the Plan. If you request a brand-name medication when a generic equivalent is available, you will pay the applicable co-payment, plus the difference in cost between the brand and the generic.
